**Re: Overnight Runway Closures for Pavement Preservation Project**

---

It has been seven years since we resurfaced runway 03/21 at Scottsdale Airport. We are starting to get some very minor cracking at various locations of the runway. This type of cracking is normal for pavement of this age and is not considered a safety hazard. In order to slow this cracking and further extend the life of our runway's surface, the airport's engineers have recommended that we apply a sealcoat to the entire runway surface and then re-stripe the markings.

We are currently soliciting bids from contractors and if all goes well with the procurement process, we will award the contract on September 7<sup>th</sup>. All of the bidding contractors have been advised that the successful bidder must begin work on Monday, September 25<sup>th</sup>.

In order to reduce the impact to flight operations, we will be conducting all of this work at night from 9 P.M. until 6 A.M. local time and we have programmed nine (9) consecutive nights for this work to take place. This closure has two nights of extra time built in as a contingency for weather. If the weather does cooperate, we should have the project completed in 6 or 7 nights. The anticipated runway closure schedule for this project is as follows:

## **RUNWAY CLOSED**

**9 P.M. to 6 A.M. (Local)**

**Monday, Sept. 25<sup>th</sup>**

**Tuesday, Sept. 26<sup>th</sup>**

**Wednesday, Sept. 27<sup>th</sup>**

**Thursday, Sept. 28<sup>th</sup>**

**Friday, Sept. 29<sup>th</sup>**

**Saturday, Sept. 30<sup>th</sup>**

**Sunday, Oct. 1<sup>st</sup>**

**Monday, Oct. 2<sup>nd</sup>**

**Tuesday, Oct 3<sup>rd</sup>**

The final closure will end at 06:00 A.M. on Wednesday, Oct 4<sup>th</sup>. If you have any questions regarding this project, please call Airport Operations personnel at (480) 312-8478.
